

# INTEGRATED MANAGEMENT SYSTEM POLICY

**Integrated Management System (IMS) Policy incorporates and governs the Quality, Environment, Health & Safety, Information Security and Business Continuity Management system.**

**We are committed to continually improve and innovate our processes and systems to deliver best-in-class foundry services to all our customers.**

**We shall ...**

- **Strive to do the right thing right the first time, every time.**
- **Involve and develop people fully to maximize their potential.**
- **Build partnerships with customers and suppliers.**
- **Assure business continuity, confidentiality, integrity and availability of information assets to safeguard our supply chain.**
- **Do our part in achieving a sustainable future and demonstrate strong commitment to social responsibility in the communities in which we work:**
  - Foster ethical principles and ensure occupational health & safety of personnel at our workplace.
  - Protect and preserve our environment and biodiversity in our operations towards green manufacturing.
  - Exercise due diligence on the source and chain of custody of key minerals from non-conflict region.
  - Contribute to our community at large as an exemplary corporate citizen.
- **Comply with all applicable legislation & regulations, and requirements of international standards.**
