

SSMC Honours 6 Companies at Supplier Day

April 27th, 2011 - Systems on Silicon Manufacturing Company Pte. Ltd. (SSMC) announced recipients of its Top Suppliers and Recognition Award for 2010. These awards recognize SSMC's top suppliers for their overall performance including quality, delivery, service support, commitment and cost competitiveness.

Mr. Jagadish CV, chief executive officer of SSMC recounted in his opening speech the numerous record highs accomplished by SSMC in year 2010 in the area of quality, wafer shipment and utilization.

Mr. Jagadish attributed the success to having a clear strategy, a dedicated team to execute and bring the strategies to fruition and last but not least to SSMC's ability to work cooperatively with our partners (suppliers and customers alike) as key in creating such competitive advantage. He also brought the attention of the all to the good mix of awarded suppliers from OEMs, MNCs who are major market players in their own field and highly regarded second sources as a clear demonstration of SSMC's commitment to:

- 1) work with major players in the market who continue to deliver value add, technology, innovative and cost effective solutions to meet our business needs and
- 2) partner and participate in the development of new capabilities, alternative solutions with alternative suppliers.

He pointed out that it is **only through this fine balance and partnership will SSMC be able to compete in this dynamic semiconductor industry.**

The highlight of the event was the presentation of the 2010 SSMC's Supplier Award. The categories and winners of this year's awards are as follows:

Best Supplier Award (Equipment, Repair & Maintenance Category)

LAM Research Singapore Pte. Ltd.

LAM is awarded for their strong customer focus orientation, effective parts management program and continues to provide strong technical and process support to SSMC.

Recipient: Mrs. Ellen Chang, LAM Research Global Account GM

Novellus Systems International BV.

Novellus is awarded for consistent equipment performance and for the responsiveness and willingness to engage, innovate and seek common ground for win-win partnership.

Recipient: Mr. Andrew Goh, Novellus President, South East Asia

Best Supplier Award (Direct and Indirect Materials Category)

Toppan Photomask Singapore Pte. Ltd.

Toppan is awarded for consistent quality and delivery performance which is crucial to enable SSMC to deliver time to market products to our end customers.

Recipient: Mr Terry Russell, Toppan Asia Ops VP

Best Supplier Award (Direct and Indirect Materials Category)

Air Products Singapore Pte. Ltd .

Air Products is awarded for demonstrating continuous improvement in quality, service support and strong demonstration of win-win partnership and support in the past 1 year.

Recipient: Mr. Dave Price, Air Products VP – Electronics Asia

Recognition Award

Ebara Engineering Singapore Pte. Ltd.

Ebara is awarded for their strong partnership orientation and active participation in joint continuous improvement projects to help deliver effective total cost of ownership solutions.

Recipient: Mr. Kazuo Tsuchiya, EBARA Managing Director

BaoHong Semi Technology Co. Ltd.

BaoHong is awarded for their excellent expedited start up track record and for their strong commitment to support the industry as a whole and Singapore Fabs in particular through increasing local presence and effective supply chain management.

Recipient: Mr. Ray Lu, Baohong Semi Technology GM

"In any partnership, there must be sustained effort to listen to each other, to understand and respond to each other's requirement, to tap on each other's resources and strength and to seek common ground for win-win solution" said Lee On Nam, Vice President Corporate Services.

He encourages suppliers to come up with innovative, feasible and cost effective solutions and said in return, SSMC will offer the suppliers our manufacturing excellence, commitment to evaluate your business proposition, speed to deliver the result and a platform to launch the fruits of our joint partnership and development to rest of world.
