- Celebrating Earth Hour in SSMC

31 Mar 2012 marked the fourth consecutive year that SSMC supported the Earth Hour campaign of WWF (World Wide Fund), as we renewed our commitment to environmental conservation. Thanks to the efforts of SSMC environmental committee, who had made special arrangement in making the "light-off" happened. Our non-emergency lights in offices, cafeteria, car park and street lights were all switched off from 8:30pm to 9:30pm, which is a rare-sight for our 24/7 operations.

Also, many SSMC employees were reminded to join the movement at home. The aim is to alert everyone that we only have one planet Earth. We must do what we can to reduce the impact that is destroying our environment; while we are making greener products for a sustainable future today.
