

SSMC Supports Water Conservation Promotion in Singapore World Water Day 2013

Celebrate Singapore World Water Day with us **16 March 2013**

Co-Organisers:

**Partners:**

In the sunny Saturday morning of **16 March 2013, SSMC was joined by 3,000 people from schools, grassroots organizations and public communities to raise awareness on conserving water resources** through participation in brisk-walking and family picnic at our adopted waterway – the Lorong Halus Wetland. The water centric event, organized by Singapore Public Utility Board (PUB), aims to bring people closer to the water, and to instill a sense of ownership of our waters and the community spaces around them. **As a participating partner and event sponsor, Mr. Jagadish, our CEO was presented the Certificate of Appreciation by Deputy Prime Minister, Mr. Teo Chee Hean, for SSMC's continuous support to PUB's effort in promoting water conservation in the annual event.**

Our fellow Learning Trail facilitators, Johannes Tanudjaja from Purchasing Department and Cho Chong Wei from Facilities Department, again volunteered themselves to sweat out in helping out with goodie bag distributions to all participants. Thank you to all our colleagues who have participated and **let us continue our effort in water conservation as we build a sustainable future together.**
