EXERCISE YELLOWSTORM

Celebrating 20 Years of Partnership with SCDF

On 22 Jan, Mike Young, our CEO welcomed Singapore Civil Defence Force (SCDF) COMR Eric Yap Wee Teck, and presented a token of appreciation to COL Chew Keng Tok, 2nd SCDF Division. He highlighted that “We are very excited to achieve this 20 years long term partnership with SCDF. This is indeed a strategic collaboration that enable our operations to embrace resilience and business continuity for all our stakeholders.”

The exercise involved two simultaneous Hazardous Material (HazMat) scenarios, the chemical tank on fire and chlorine cylinder leak. SSMC deployed 26 Emergency Response Team (ERT) as first responders to contain the emergency. SSMC ERT joined SCDF's 17 vehicles and 193 personnel and worked side-by-side to rescue 10 casualties, firefight and mitigate the HazMat scenarios.

Our ERT heroes and heroines were able to sharpen their operational knowledge, skills and enhance our readiness in emergency response. So that we can ensure business continuity to support all our customers.
